USERS' GUIDE

Catalog Arrangement and Indexes

The bibliographic entries in the *Monthly Catalog* are arranged in Superintendent of Documents classification number order. Each record is also assigned a unique catalog number, which consists of a two-digit prefix representing the catalog year, followed by a sequential number beginning with 1 in the first issue of each year. Within this arrangement, the publications of each Government author are further identified by the name and address of the issuing agency.

Catalog entries may be accessed by the following indexes:

Author index: An alphabetical list of personal authors, editors, co-authors, corporate authors, and conferences.

Title index: An alphabetical list of titles proper, subtitles, and alternate titles.

Subject index: An alphabetical list of subjects derived from the *Library of Congress Subject Headings*.

Series/Report index: An alphabetical listing of series statements and tracings, series numbers, and report numbers.

Contract number index: An alphanumeric list of contract, grant, and project numbers associated with technical report publications.

Stock number index: An alphanumeric list of Superintendent of Documents and other sales stock numbers.

Title keyword index: An alphabetical list of truncated titles, arranged by important words selected from publication titles.

A **margin index** on the back cover locates the seven indexes. Listings in all of the indexes are followed by the catalog entry number, which refers the user to the complete bibliographic citation. Listings in the **title and subject indexes** are augmented with the publications' author and classification number to enhance identification and retrieval. Cumulative indexes are published semiannually, annually, and quinquennially, and in addition the indexes listed above, include a **Classification number index** for all the publications listed during the period of cumulation.

Abbreviations

The abbreviations used in the bibliographic records in the catalog are those described in the *Anglo-American Cataloguing Rules*, 2nd ed., and the *GPO Classification Manual: A Practical Guide to the Superintendent of Documents Classification System*.

List of Government Authors

This alphabetical list in the preliminary pages of each catalog locates the beginning of the sequence of entries of documents issued by a specific agency. The list is compiled each month and contains only Government authors of documents included in that *Monthly Catalog* issue.

The *Out-of-Print GPO Sales Publications Reference File* provides users with access to historical records for publications which were once available through the Sales Program. Two 6-year cumulations have been produced. The first was published in 1980 and is known as the Exhausted GPO Sales Publications Reference File (EPRF). It includes 25,000 items which went out-of-print at GPO between 1972 and 1978. The second, known as the Out-of-Print PRF (OPRF), was published in 1986. It contains 35,000 titles which went out-of-print between 1979 and 1984. The EPRF and the OPRF continue to be supplemented each year. Supplements are sold annually and will cumulate until a third 6-year set is available in 1992.

Copies of publications listed on the EPRF and the OPRF may be found in regional depository library collections. Copies of certain technical publications no longer sold by the Superintendent of Documents may be available from:

National Technical Information Service

STANDING ORDER SERVICE

For your convenience, the Superintendent of Documents offer a "standing order" service for many of our recurring or series publications. With standing order service, customers can request to be placed on a specific standing order list and will receive publications on the list as soon as they become available. Customers may maintain a Superintendent of Documents deposit account, or have their VISA or MasterCard account charged for these publications. Please note, however, that our subscription services are not available on a "standing order" basis. To receive a publication on standing order, customers should submit GPO Form 3468, "Authorization for Standing Order Service." This form is available from the Superintendent of Documents at no charge. For more information on standing order service, please write to:

QUANTITY AND BOOKDEALER DISCOUNTS

Individuals are authorized a 25-percent discount for purchases of 100 or more copies of a single publication mailed to one address. Bookdealers buying for the purpose of resale will receive the same 25 percent discount, regardless of quantity, if the publications are mailed to their place of business. No discount is allowed on certain periodicals or groups of publications which fall into a special pricing category.

INTERNATIONAL CUSTOMERS

In order to provide the special handling required by international mailing regulations, a surcharge of 25 percent of the domestic price must be added on all items shipped to a foreign address. Remittance in U.S. dollars should accompany every order and be in the form of a check drawn on a bank located in the U.S. or Canada, a VISA or MasterCard account, a UNESCO coupon, or an International Postal Money Order made payable to the Superintendent of Documents. NOTE: Due to Treasury Department regulations, we cannot accept checks drawn on Canadian banks for less than \$4.00 (U.S. dollars). If your order totals less than \$4.00 (U.S. dollars), we suggest that you use your VISA or MasterCard account. International customers may also charge their mail, telephone and telex orders to a Superintendent of Documents deposit account. Please include the expiration date of your credit card with your order. Orders are sent via surface mail unless otherwise requested.

Should you desire airmail service, please contact us in advance by letter, telephone (202) 783-3238, or Telex (710-822-9413; ANSWER BACK USGPO WSH) for the total cost of your order. Foreign currency, checks on foreign banks, and postage stamps will not be accepted. Please submit all orders in English.

FEDERAL DEPOSITORY LIBRARY PROGRAM

The Federal Depository Library Program was established by Congress to provide free public access to Government publications. Nearly 1400 public, academic, State, and law libraries serve as an information link with the Federal Government by maintaining collections of Government publications. These collections, which are tailored to local needs, are open to the public. Fifty-four of the libraries are designated as regional depository libraries. They have the responsibility of retaining material permanently and providing inter-library loan and reference services in their regions. They also assist the other depository libraries with the disposal of obsolete material.

Copies of documents no longer available through the GPO Sales Program can usually be found in regional depository collections. A complete listing of regional depositories follows. To obtain a complete listing of all depository libraries, write to:
